Building Capacity for Florida's GED® Programs Workshops Follow-Up

This fall, Florida IPDAE hosted a statewide GED® Train-the-Trainer Workshop. Developed by GED Testing Service®, this full-day training provided attendees with workshops that can be presented within their college, school district, correctional facility, or community organization. The purpose of the training was to utilize professional development to build high-performance communities of practice. Participants found the training motivating and beneficial. Thanks to all of you who helped make these workshops a success. *Look for follow up webinars in January and February of 2017.*
