

## Prealgebra ~ Lesson 30

Work the following examples as you listen to the recorded lecture.

### Adding and Subtracting Decimals

*Hint: Always line up the decimal points.*

Add or subtract:

Example 1:

$$3.6 + 4.1$$

Example 2:

$$5.17 + 3.7$$

Example 3:

$$24.6 + 2.39 + 0.0678$$

Example 4:

$$-18.2 + (-10.8)$$

Example 5:

$$654.9 - 56.67$$

Example 6:

$$28 - 3.3$$
