

Prealgebra ~ Lesson 30

Work the following examples as you listen to the recorded lecture.

Adding and Subtracting Decimals

Hint: Always line up the decimal points.

Add or subtract:

Example 1:
 $3.6 + 4.1$

Example 2:
 $5.17 + 3.7$

Example 3:
 $24.6 + 2.39 + 0.0678$

Example 4:
 $-18.2 + (-10.8)$

Example 5:
 $654.9 - 56.67$

Example 6:
 $28 - 3.3$
