

State Data Reporting Procedures for TABE 11/12 Scores

For information on determining initial placement and reporting of learning gains through Literacy Completion Points please refer to the following resources:

- [TABE 11/12 Procedures for Initial Placement of Adult General Education Students](#) (PDF)
- [TABE 11/12 Procedures for Post-testing and Determination of Learning Gains](#) (PDF)

The following procedures are used in reporting the following data elements:

FCS: Entry Level/Exit Test – Score (DE 1101)

WDIS: Adult Test Score (DE 101793)

CBO: Adult Test Score

In-range Scores

Please use the following procedures when a test administration results in a score, including those that begin with a “+” or “-”, that is within the allowable range for the Test Level and Form:

Agency should report a “0” in the first field of the four character data element followed by the three digit score. For example, if a student receives a score of 485 on the Reading Level M Form 11 test, your agency would report 0485 for the test score.

Out of Range (OOR) Score- Low

Please use the following procedures when a test administration results in a score that is lower than the allowable range for the Test Level and Form:

If a student tests and no score is provided or the score indicates a score of N/A, the student should be reported with a “1” followed by the lowest score value for the TABE Level and Form. For example, if a student receives a score of N/A on the Math Level M Form 11 test, your agency would report 1454 for the test score.

To assist with determining the correct out of range scores to report, please use the following tables.
