DEVELOPMENT OF ADULT EDUCATORS

# Overview

Kahoot! is a game-based learning tool that engages students and motivates participation. It can be used in any content area to formatively assess individual knowledge.

## Kahoot! Instructions

1. Go to: [getkahoot.com](http://getkahoot.com)
2. Sign in
3. Decide whether you want to create a Quiz, Discussion, or Survey
4. Give your Quiz a name
5. Enter your first question
6. Type in the answer choices at the bottom of the page
7. Note which choice is the correct answer by clicking on it.
8. Click on “Add a Question”

Continue steps 5 – 8 for as many questions as you want to create.

9. Choose “Save and Continue” after your last question
10. Look over your quiz and edit if necessary
11. Choose “Save and Continue” after editing
12. Decide on the language, private or public, and audience settings
13. Choose “Save and Continue”
14. Click on “Edit and Save”
15. You are now Ready to Play
16. Have students log into **Kahoot.it** on their personal devices or computers
17. Click on Launch
18. Students will be prompted to put in the game-pin number
19. Students will be prompted to put in a nickname
20. Once the game pin number and nickname have been entered, students will receive a message “You’re In” on their device
21. Students nicknames will appear on the teacher’s game screen
22. Click on “Start Now”
23. Students will read the question from the teacher’s computer and choose the correct response on their device.
24. The faster the correct answer is inputted, the higher the score.
25. Enjoy watching your students look forward to assessment time.

## Kahoot!

- Can be used with any subject matter.
- Can be played on any device with a web browser (computers, tablets, cell phones, Nooks, etc.).
- Can be used by students to create their own Kahoots for practice or to use them to challenge their classmates.
- Can be searched to find thousands of public Kahoots for use in the classroom.
