This training event is supported with federal funds as appropriated to the Florida Department of Education, Division of Career and Adult Education for the provision of state leadership professional development activities.

Welcome!

- If you have question, please type it into the **Q&A** option.

- Attendee microphones will be muted. You will be in **listen only** mode.
- Today's presentation is being **recorded**. It will be archived and available on the IPDAE website within 48 hours.

Do you incorporate evidence-based writing skills at the ABE level?
Do your students have problems with reading comprehension?
Do you know how to build a math learning trajectory?

An Introduction to ABE: Getting Back to the Basics in Language Arts and Mathematics

A workshop series that will provide you with

- *strategies and activities for your ABE classroom in the areas of reading comprehension and evidence-based writing*
- *an introduction to math trajectories – a great way to better understand the learning progressions of the ABE math standards and integrate career assessment tools*

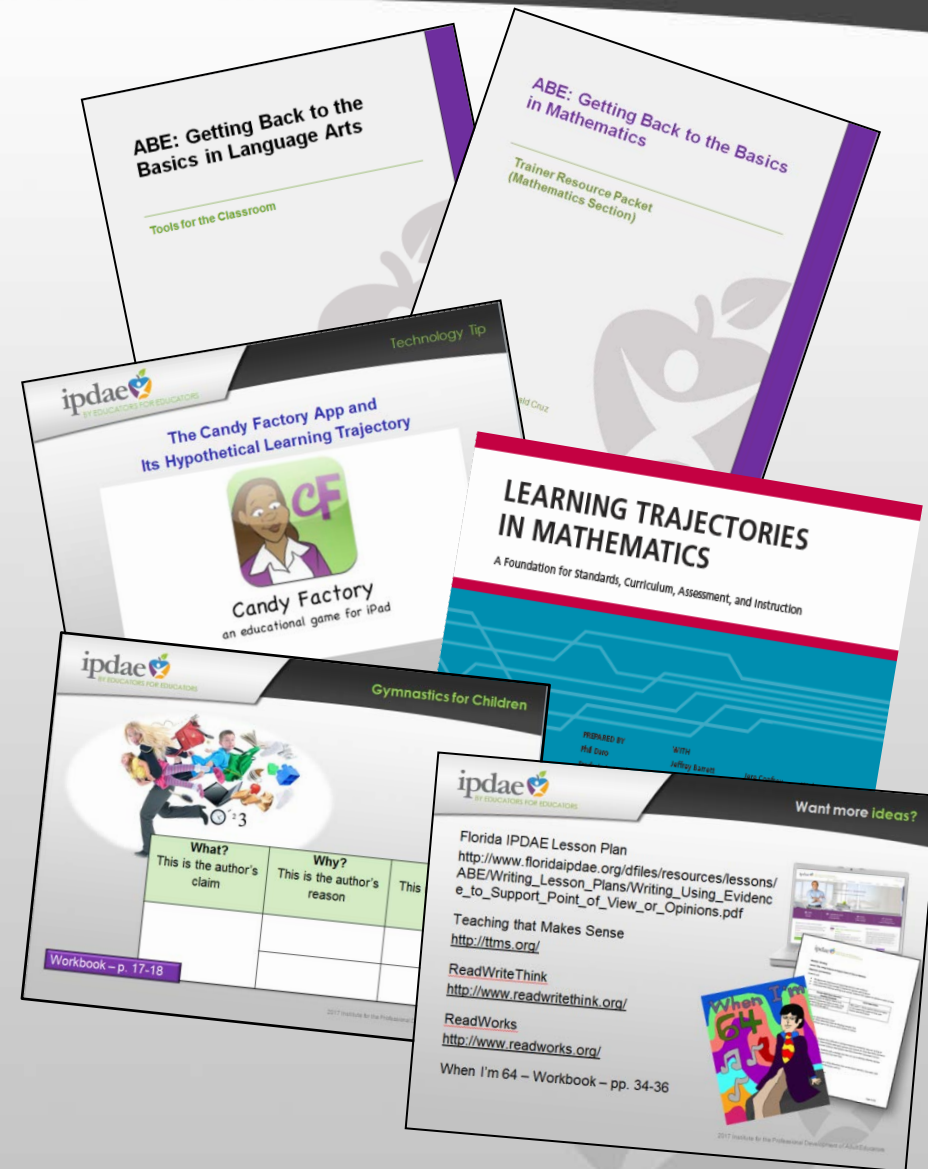

In today's webinar, we will

- Introduce the ABE: Getting Back to the Basics in Language Arts and Mathematics PD Series
- Set the stage for the areas of reading, evidence-based writing, and mathematical learning trajectories
- Provide background information on the "basics"

- Interactive PowerPoint Presentations
- Tools for the Classroom (Workbooks)
- Strategies and Activities Aligned with the ABE Standards
- Graphic Organizers
- Technology Tip
- Math Standards by Domain
- Math Assessment Ideas
- Research for Teaching
- Opportunity to Network
- More . . .

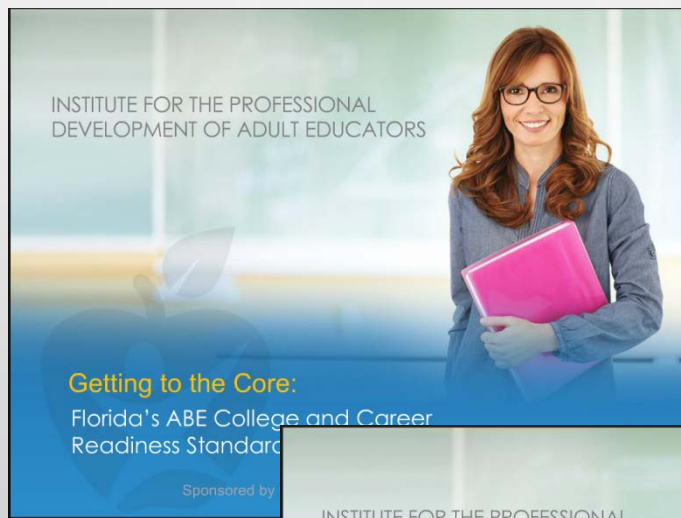

- February 8 – Brevard County
- February 9 – Palm Beach County
- February 11 – Collier County
- February 24 – Alachua County

Why is writing often difficult for students?

Students may lack

- coordinated cognitive processes and strategies
- requisite foundational skills
- writing routines

“Write” from the start,
it is important to teach
evidence-based
writing strategies.

Looking at the ABE math standards, do you wonder:

1. Where should you start?
2. Where to go next?
3. How do you get there?
4. How do you identify the transitions between levels?

Build Math Learning Trajectories for the ABE Classroom

1. Learning goals
2. Developmental progressions
3. Mathematical tasks to promote learning
