| Language | 10/26/2018 | M | 39 | 30 | 35 | 552 | 19 | 4 | N |

If a student scores more than one NRS level above the targeted level, then a (+) sign will appear next to the scale score and their score will be set to the highest possible scale score, which is one above the targeted level. In this case, students may want to test with a higher TABE test in order to better assess their ability.

Scale scores with a minus (-) sign next to them are indicators that the student performed at the lower end of the performance range of that level of TABE and the student will likely need to have extended instruction to be ready to demonstrate an NRS Gain on a post test.

The Measurable Skills Gain (MSG) is designed to measure interim progress made by students during an academic year. N denotes the student either did not have enough data to measure a gain or did not receive a gain; and Y denotes the student received an MSG in the academic year.

4. When and How Often To Post-test

- *Boot Camp (Intensive Test Prep)*
- *Ongoing Post-Testing*

Boot Camp (Intensive Test Prep)

- Provide 5-10 hours of intensive test prep. instruction.
- Address ONLY content that will be post-tested.
- Focus on content that the student has not yet mastered, especially heavily-tested content.
- Review the test format and question types for the level and form on which the student will be post-tested.

4. When and How Often To Post-test

- *Boot Camp (Intensive Test Prep)*
- *Ongoing Post-Testing*

Ongoing Post-testing

- Try to post-test students as often as possible, ensuring that you are following the test manufacturer's required minimum number of instructional hours for post-testing.
- This ensures that your students will have multiple opportunities to demonstrate mastery and move to the next functional level.

What does it really mean to have a “growth mindset?”

Having a growth mindset means that you can learn anything if you are sufficiently motivated.

- Choose growth over fear of failure.
- Don't memorize information. Actually try to understand so that you and your students can achieve more.
- Remind yourself of your success.
- Remember that it's impossible to grow without failure.
