Updates and Messages on Home Screen

Welcome to the DRC INSIGHT Portal

Congratulations, you have successfully logged on.

Several helpful links are just a click away. Please take time to familiarize yourself with the navigation menu under **My Applications** at the top of this screen.

If you are having difficulty navigating through the site, please review the instructions at the top of each page, or contact the TABE customer service team at 1.866.282.2250.

After June 30, 2019, all federally funded programs that report measurable skills gains to the office of Career, Technical, and Adult Education (OCTAE) should no longer be testing with TABE 9/10. Starting July 1st, these programs should be using TABE 11&12. If you are a program that needs to continue using TABE 9/10 and can no longer access it, please contact the TABE help desk.

Announcement (8/12/19): Results for TABE 9/10 will now be posted twice daily (12:30PM and 6:30PM CST) for all customers.

Announcement (9/12/19): An updated version of the COS Service Device (COS-SD) is schedule to be released the evening of Thursday, September 12, 2019. This required release will update COS-SDs from version 3.0xx to version 3.1xx. In order for this update process to run automatically, users must ensure their COS-SDs are turned on overnight and are set to not fall asleep or hibernate. No other human intervention should be required; however, you should check with your IT personnel to make sure your network configuration will allow the update.

ACCESS ONLINE TOOLS TRAINING WITH GOOGLE CHROME

Publicly accessible versions of the Online Tools Training are available. Please copy the link below into Google Chrome to access these practice opportunities. Note that Google Chrome is the only supported browser for this public version of the Online Tools Training.

If a student scores more than one NRS level above the targeted level, then a (+) sign will appear next to the scale score and their score will be set to the highest possible scale score, which is one above the targeted level. In this case, students may want to test with a higher TABE test in order to better assess their ability.

Scale scores with a minus (-) sign next to them are indicators that the student performed at the lower end of the performance range of that level of TABE and the student will likely need to have extended instruction to be ready to demonstrate an NRS Gain on a post test.

The Measurable Skills Gain (MSG) is designed to measure interim progress made by students during an academic year. N denotes the student either did not have enough data to measure a gain or did not receive a gain; and Y denotes the student received an MSG in the academic year.

TABE Off-Line

- Pilot started in February with Texas Corrections

- Utilizes TABE Online Portal for Administrative Registration

- Students Test on non-internet connected computers

- Responses are uploaded to TABE Portal for Scoring and Reporting

TABE Off-Line

TABE and High School Equivalency

TABE and High School Equivalency (HSE) Tests are aligned to the College and Career Readiness Standards (CCRS)

TABE 11&12 was designed to support a pathway to High School Equivalency and beyond

In states where adult learners are tested multiple times, is it necessary to require all subjects of a High School Equivalency test where TABE is being used?

- TABE can help support an alternate path to fulfill those state requirements

- Depending on the level of TABE, states using this assessment have already assessed many of the same content areas and standards

TABE and HSE Concordance

TABE TO HSE CONCORDANCE: READING
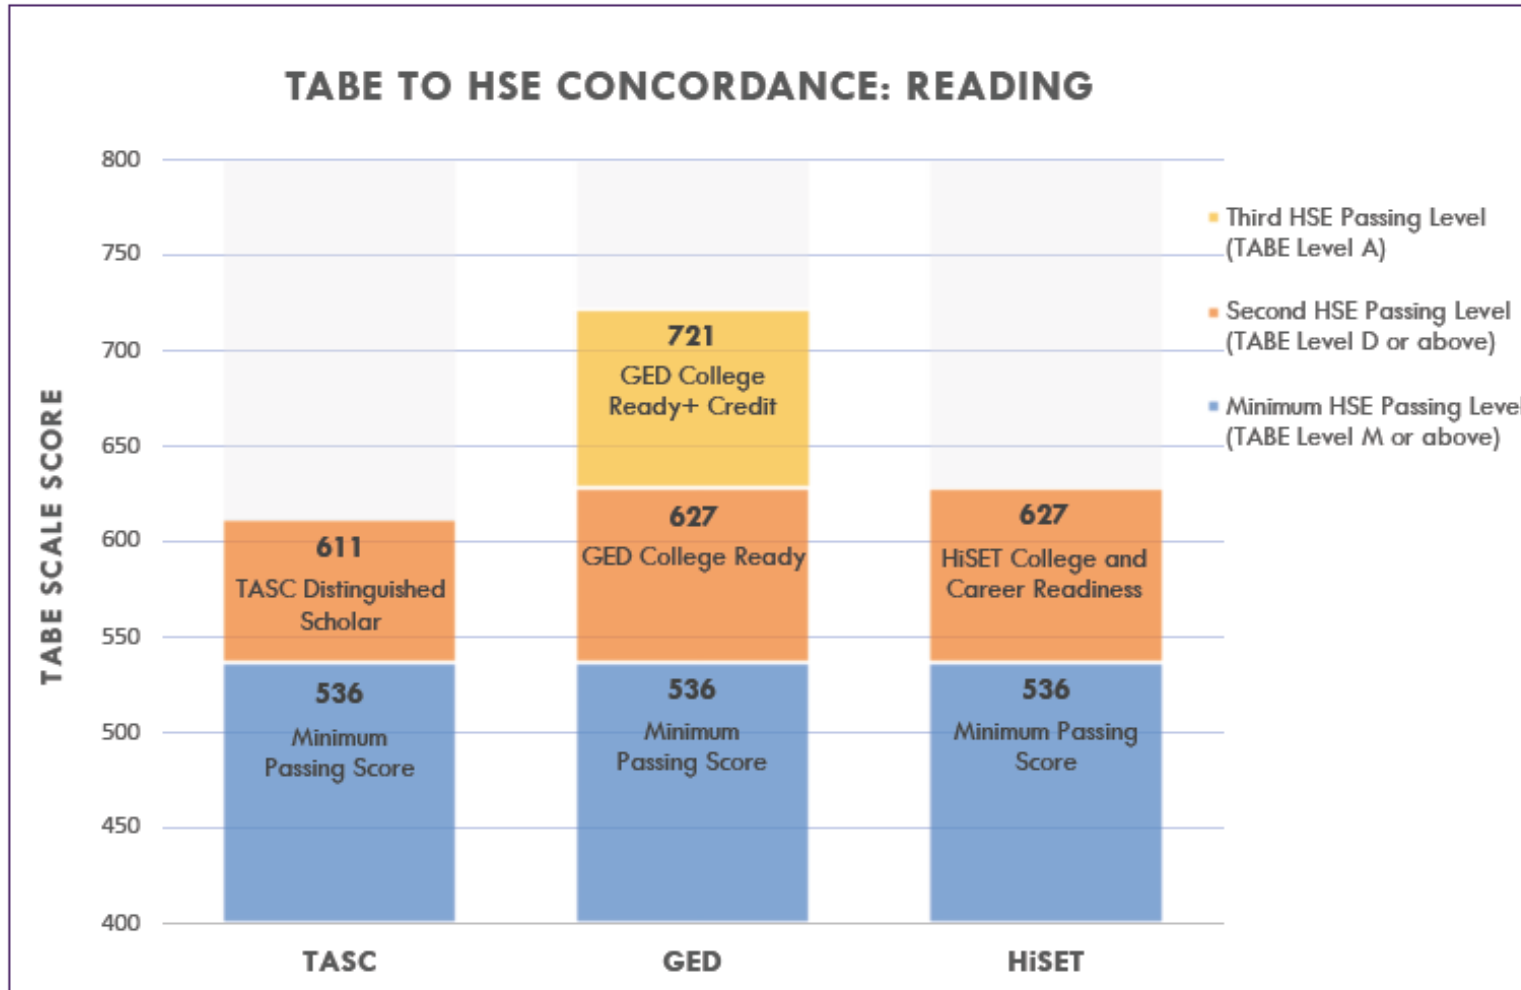

Ability to Benefit

- Allows students access to Federal Financial Aid without diploma or HSE

- Application sent to US Dept of Education

- Responding to questions from the Departments review
