

Connecting Math to Life Beyond the Classroom

Webinar Worksheet

WEBINAR IN-SESSION WORKSHEET

Connecting Math to Life Beyond the Classroom

When Will I Ever Use This?

Connecting math to life beyond the classroom by embracing language and the multiple meanings of words in English. The following worksheet will help you begin to think about the ways in which these connections can be made.

Authors:

Harold Gertner

This training event is supported with federal funds as appropriated to the Florida Department of Education, Division of Career and Adult Education for the provision of state leadership professional development activities.

The Language of Math: participants worksheet

A major part of this workshop deals with examining the language that we use as a means to connect the world of mathematics to the world in which the students operate every day.

For this exercise please take a moment to complete two tasks:

1. Define the following words.
2. Note the context in which you most often encounter these words.

A Quarter –

A Half –

Acute –

Volume –

Inequality –

Fraction –
