

CCRABES Math Webinar

PART I

Description and Agenda

Developed by: Ronald Cruz

Workshop Description

The CCRABES Math Webinar Series is a series of webinars designed to provide additional support to ABE teachers in their implementation of the newly-developed College and Career Readiness Standards for Adult Education. This series of webinars align with the face-to-face workshop and online courses focusing on CCRS. The CCRABES Math Webinar Part 1 provide teachers with an overview of CCRS, instructional strategies helpful in curriculum implementation, follow up on student-centered activities introduced in the face-to-face workshops, tutorial on how to access online support materials for CCRABES, technology tips, and Q&A session focusing on the new standards.
