SCORE REPORT SYMBOL	MEANING OF THE SYMBOL	EFFECT ON THE STUDENT'S SCORE	RECOMMENDED CHANGE
Plus Sign (+) after the scale score	Student scored more than one NRS level above the target level.	The student's score is set to the highest possible scale score for that test level.	You may want to test the student with a higher level of TABE to better assess their ability level.
Minus Sign (-) after the scale score	Student scored one NRS level below target level.	The student's score is set to the lowest possible scale score for that test level.	You may want to test the student with one level lower of TABE to better assess their ability level. In addition, the student will likely need to have extended instruction to be ready to demonstrate an NRS gain on a post test.
Out of Range (O/R) in place of the NRS level and N/A in place of the scale score	Student scored more than one NRS level below the target level	The student does not receive a scale score or NRS level.	The student should take a lower level of TABE.

# Time to Reflect

## ***Growth Mindset: Taking It One Step Further***

**Change** how you teach the remainder of the term. Look at your student data. **Check** for student improvement on specific concepts or topics and determine to update their individualized ISPs regularly to reflect this improvement.

**Redesign** your lesson planning to incorporate your students' testing performance data and use the provided ABE Language Common Planning Template to target key standards that require mastery.

**Review** all of the resources that have been shared in this webinar, and look through the companion resource handbook along with other amazing resources available on the IPDAE website and make an active decision to make these resources a regular component of your classroom instruction.

**Reflect and Make a Change.** Finally, ask yourself, "What is working especially well, and what do I need to improve?"
