Lessons on the Savanna
by Roland Smith

- "I'm not so worried about time anymore," I said.
- He smiled. "Good! You are not too busy to drink."
- He led me to a tree not far from the river. "You must climb as high as you can look out on the savanna. You will need this skill."
- I took the gourd. "What will you do with it?"
- "I will be too busy to drink," he said.
- I didn't know what he meant. I had found a comfortable place to sit.
- "Can you see the grass of the savanna?" Supeet yelled up to me.
- "Yes," I shouted back.
- "Good! What else do you see?"

Which quotation from the passage supports the idea that Supeet is teaching the narrator a skill that requires patience?

The 5 Things Every Educator Needs to Know to Help Students Take an O.P. Test

1. Tell them that the O.P. GED test option is available to them
2. They can find all the info they need about this option at GED.com under "About the Test" or on their GED.com account
3. Before test day students should practice with the Whiteboard tool to get comfortable before they test
4. Complete the online system check before scheduling – to make sure their equipment works properly.
5. The content on the O.P. test is the same content they'd see when testing in person.
